# Training Manual

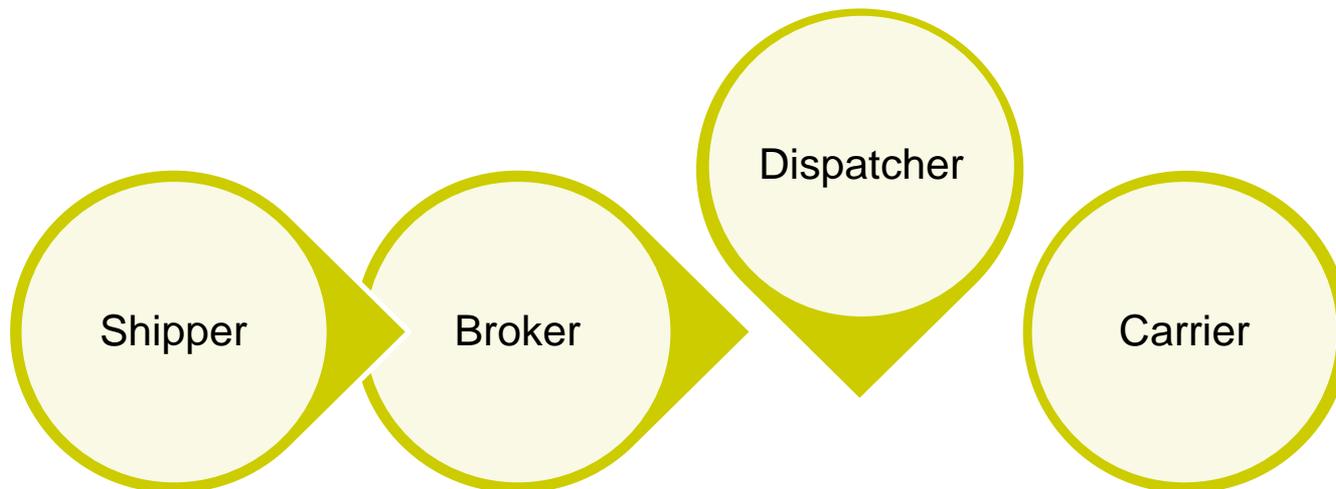

# Who is a Dispatcher?

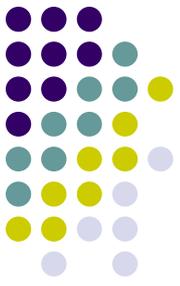

A **Dispatcher** is the bridge between Broker & Carrier. Here is a list of services a dispatcher provides to a **Carrier** (client):

- Load Information
- Rate Negotiation with Brokers
- Carrier's Documentation
- Communicate with Brokers, Shippers and Consignees on the behalf of Carrier

# Our Services

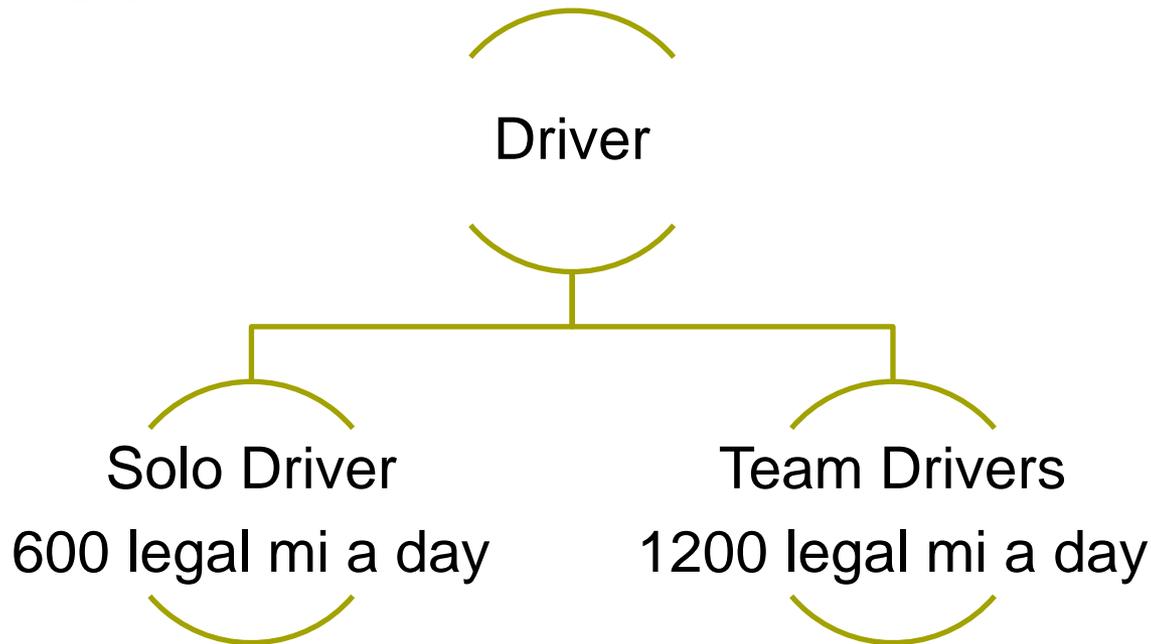

- ▣ We specialize in helping carriers to find the top paying freights (loads) for their trucks. Our dispatchers negotiate for the highest rates and inform the carrier by sending him/her the load options to let carrier decide the final decision.
- ▣ We assist our carriers to move more freights safely and cost effectively every day! In addition, we bring a great deal more to the table than just dispatching. We work with carriers, as their partner, to provide the tools they need to keep their trucks loaded and profitable.
- ▣ A dedicated dispatcher is assigned to every carrier, becoming a single point of contact. That dispatcher knows carrier's transportation business intimately and always looks out for carrier business's best interest.

Payment directly from Broker via Carrier's Voided check. Carrier gets paid in 1 – 5 business days with 3 – 5% reduction in amount from broker depending on broker's policy through ACH or wire transfer.

- **Payment through Factoring Company (Uses NOA from Factoring Company)**

Carrier gets paid in 1 – 3 business days with 2 – 2.5% reduction in amount from factoring company depending on factoring company's policy.

(Carriers who got factoring always prefers payment through their factoring company because it is reliable, fast, secure and with lower reduction amount)

# Driver Friendly Load - DFL

Following are the major factors that make up the best freight option for any carrier:

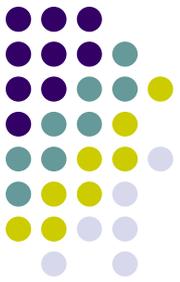

- Maximum rate ( \$ per mile)
- Minimum weight
- Minimum Dead Head (from origin and destination)

This kind of load is termed as DFL (Driver Friendly Load).

(Always keep it in mind that rate from broker will be inversely proportional to the miles of a trip)

“The more the miles, lesser the rate  
The lower the miles, higher the rate”

# Documents Req. from Carrier

# Circumstances when Amount in RC can be amended

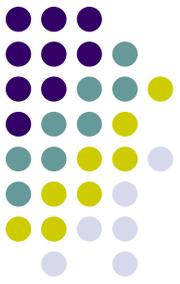

Following are the circumstances which can amend the amount in RC after agreeing on a rate:

- **TONU** (Truck Order Not Used)
- **Detention** Charges
- **Layover** Charges
- **Lumper** Charges
- **Scale Tickets**

“Check in and out times on BOL and POD are very important and useful for a you if your driver caught into any one of the above situations”

# TONU (Truck Order Not Used)

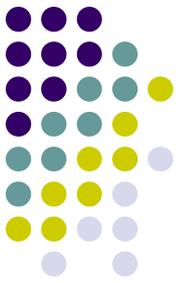

If your driver checked into the premises of the shipper and shipper cancels the load or the broker cancels the load at the last moment, then in both cases TONU will be applied to coverup the fuel cost and time wasted.

TONU is about \$100 – \$250 which depends on how much time your driver waited there or broker’s policy.

Dispatcher must negotiate with broker for TONU to get driver maximum amount.

# Detention Charges

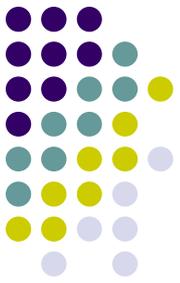

Detention applies after 2 hours of waiting of driver at the shipper or consignee.

Detention is applied at per waiting hour rate after 2 hours.

The average detention rate paid by the broker is between \$25 – \$35.

# Layover Charges

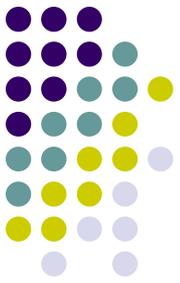

Layover applies after 6 hours of waiting of driver at the shipper or consignee.

The average layover rate paid by the broker is between \$150 – \$250.

# Lumper charges

Two types of lumpers:

- Driver Assists to load/unload freight
- Hiring someone to load/unload freight

Broker pays carrier extra amount for any of these mentioned above.

# Scale Tickets

A scale ticket is the paper receipt from the facility that weighed the truck. The paper weight ticket is used to determine the net and gross weight of the truck.

It costs driver \$13 to weigh a Straight Truck once.

# Freight Guard Report on MC “Carrier’s worst nightmare”

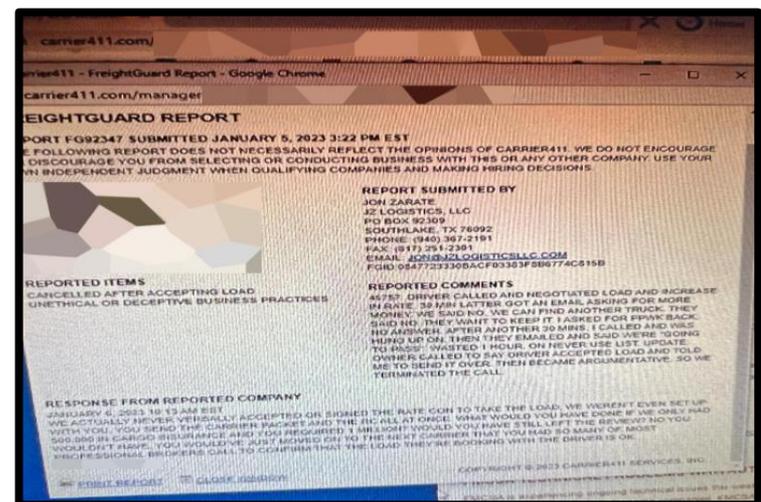

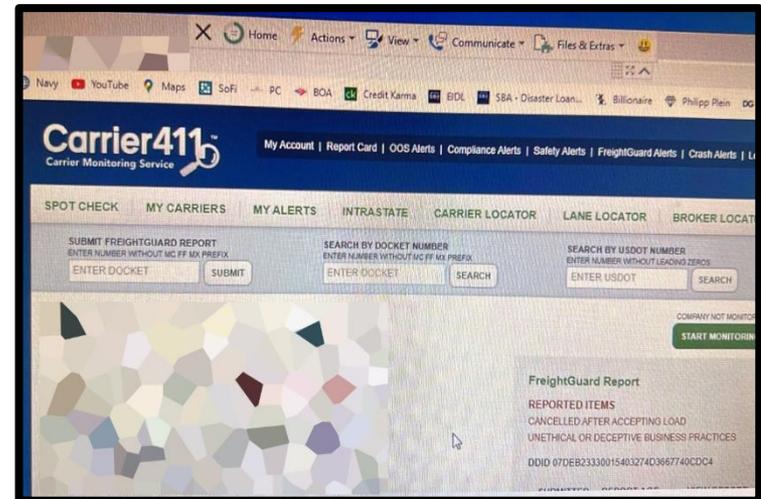

This is when the carrier cancels the load at the last moment i.e., the pickup time was 2 pm and the carrier cancels it at 1:45 pm.

If carrier needs to cancel the load it must cancel the load at least few hours before or ASAP if the PU is in next hour or two.

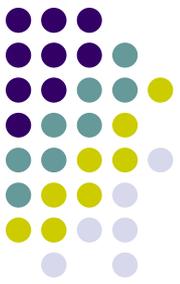

If the Loadout trailer isn't returned to its designated place at its designated time.

As a result of this, the carrier's MC will be hit, Carrier won't be able to book any loads for at least 90 days with any broker! And most probably carrier must renew its MC
