## Imperative sentences of active and passive voice

An imperative sentence in the passive voice has the following structure:

**(Let + object + be + past participle)**

Examples:

**Active:** Carry it home.

**Passive:** Let it be carried home.

**Active:** Do it at once.

**Passive:** Let it be done at once.

**Active:** Open the door.

**Passive:** Let the door be opened.

**Active:** Throw the ball.

**Passive:** Let the ball be thrown.

When the active voice is negative, the passive voice takes this structure:

**(Let + object + not + be + past participle)**

**Active:** Do not beat the dog.

**Passive:** Let the dog not be beaten.

**\*Note:** That (Do) is not used in the passive form.

We can begin the passive sentence with (You) if we want to put emphasis on the person.

Examples:

**Active:** Help me.

**Passive:** Let me be helped.

**Passive:** You are requested to help me.

**Active:** Learn the poem.

**Passive:** Let the poem be learned.

**Passive:** You are asked to learn the poem.

**Active:** Don't touch it.

**Passive:** Let it not be touched.

**Passive:** You are forbidden not to touch it.

**\*Note:** That the passive form has to begin with (You) when the object of the active verb is not mentioned.

**Active:** Work hard.

**\*Here the active verb does not have an object.**

Therefore the passive form should begin with (You) and according to the sentence we use (advised, suggested, forbidden, propose, order or request)

Examples:

**Passive:** You are advised to work hard.

**Active:** Get out.

**Passive:** You are ordered to get out

**Active:** lets go.

**Passive:** You are proposed to go.

**Active:** You should study.

**Passive:** You are suggested to study.

**Active:** Please call again.
